

Moon Curser Vineyards is a small winery in Osoyoos, a South Okanagan border town known for its natural beauty, lake and vineyards.

The winery name pays tribute to the gold smuggling history of Osoyoos. The wines, however, show no such respect for tradition – the winery is known for growing unusual varieties such as Tannat and Tempranillo, among others.

The vines have thrived in Osoyoos and continue to deliver unique, world-class interpretations of these traditional wines.
